- Canopies
- Glass partitioning
- Splash-backs
- Frameless sliding doors
- Components
- Fire surrounds
- Shower screens & cubicles
- Stair treads & stair cases
- Mirrors
- Floor glass

## WHY GLASS & STAINLESS?

Focused on optimised delivery and service, we really do lead the market.

We only specify the highest quality products to the most stringent safety regulations, looking at each project individually.

We listen to your needs and adapt each project to suit, ensuring we advise the right products for you!

For supply only:

We offer a nationwide delivery service. Standard lead-time on toughened glass is 5-7 working days and toughened laminated is 10-14 days. All other glass lead times on order, however an express service is available on all products if required.

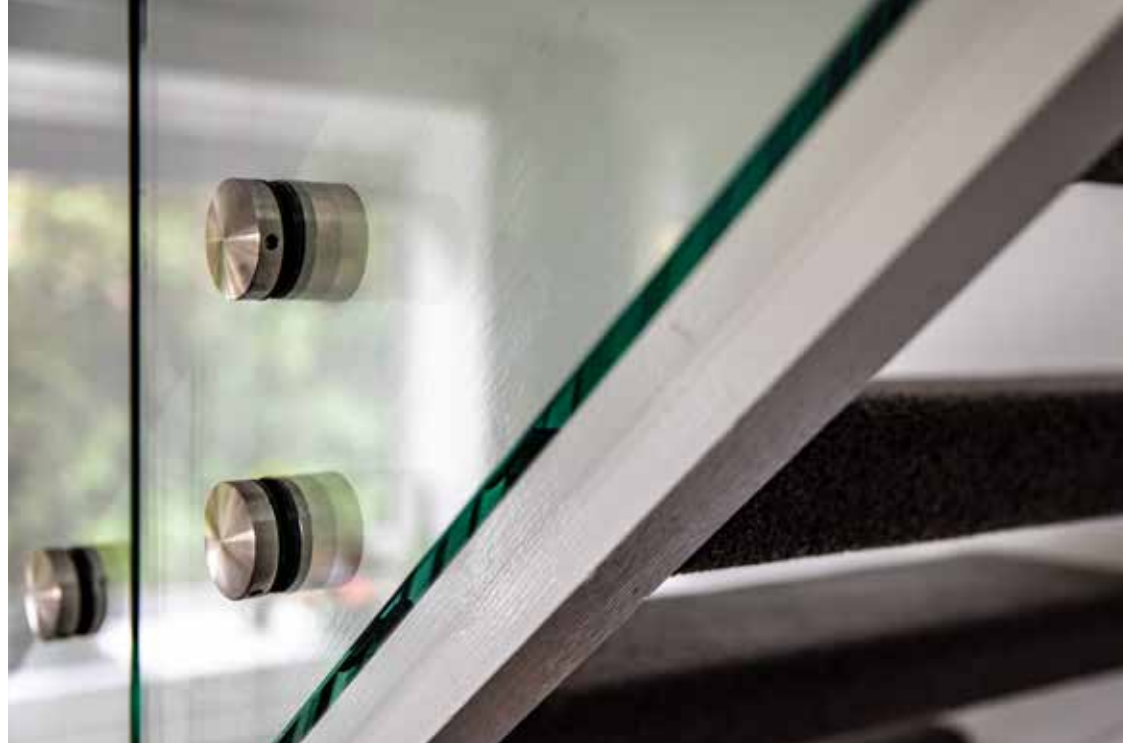

## BALUSTRADES

G-RAIL is our high quality stainless steel and aluminium balustrade and railing system.

It provides a simple, effective and attractive solution to enhance your surroundings. A wide variety of designs are available to create a modern contemporary setting.

As with everything we supply, our G-RAIL systems have been tested by independent engineers to establish exactly which design, fixtures and fittings are safest for your installation.

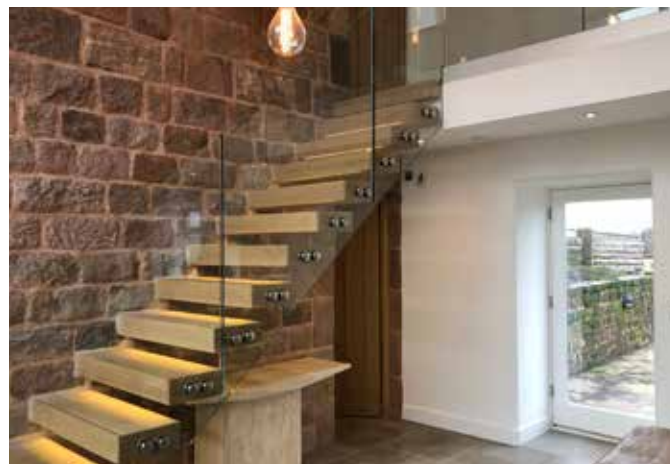

## STAIRCASES

The Glass & Stainless team have the necessary technical expertise to transform your ideas into detailed specifications and then a stunning final product. We guarantee excellent attention to detail and are constantly assessing the potential of new technologies. Whatever your situation we are able to offer flexible solutions. Furthermore, our services also include measuring up and installation to make the process as easy and pain free as possible.

Examples of staircases we can help with include:

- Bespoke staircases
- Glass cantilevered staircases
- Floating staircases
- Spiral staircases
- Helical staircases
- Curved staircases
- Staircase refurbishment

## GLASS DOORS & PARTITIONS

Our G-LINE glass sliding doors and bespoke glass doors along with frameless glass partitioning can improve the aesthetics of your surroundings, bringing both a modern and contemporary feel to your commercial or residential environment.

Glass & Stainless provide full height glass doors, screens, walls, partitions and room dividers to maximise space and light in your building.

## GLASS FLOORS

Our G-FLOOR glass floor range is designed to suit your requirements. All our glass is manufactured to EN 12150 - 2:2004 to ensure we comply to all British Standards. We can supply and install or offer on a supply only basis, dependent on your requirements. Coloured or tinted glass can be incorporated in the design, we can even add LED lights around the edge to enhance the finished effect.

## CANOPIES

Our G-CUVA canopy systems are produced from high quality stainless steel, suitable for external installation.

These systems are designed to create a stylish yet functional entrance coverage with a choice of fixtures to suit your design.

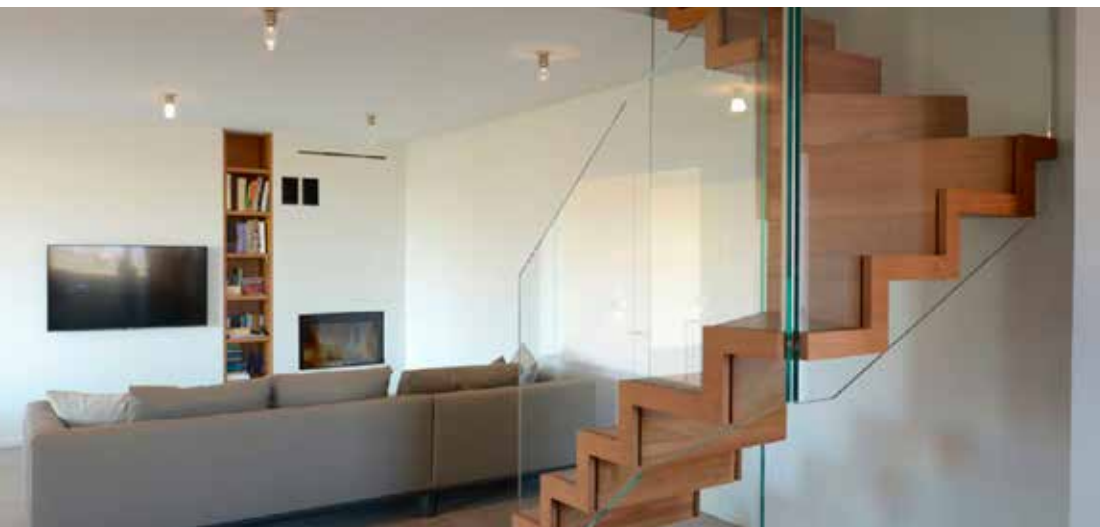

## BESPOKE GLASS

At Glass & Stainless we have a reputation for delivering excellent quality and our bespoke glass service is no different. From straight forward rectangles to shapes and curves, we can help with your requirements. Our average lead-time for standard toughened glass is 5-7 days from order and delivery is included to most UK mainland addresses. Below is an overview of what we can supply:

- Toughened (4mm-25mm)
- Toughened Laminated (9.52mm-39mm)
- Curved glass
- Low Iron
- Floor glass
- Screen printed
- Digital printed
- Anti-Slip
- Textured
- Tinted glass
- Sandblasted
- Heat soaked
- Mirrors
- Switchable smart glass
